Abstract

Statement of the Problem: Diabetes Type 2 & Glaucoma Healing.

As most of us are aware Type 2 diabetes can be controlled and cured completely with the diet, workouts (yoga), effective stress management and other healing methods.

Glaucoma Healing-Without Any Medicines

We had 1 patient with high blood pressure and diabetes due to which he lost one eye sight completely and the other one he lost around 70% of the eye sight. We started giving this patient Mexican healing and distant Reiki Healing within few days we could see that 3 of his dead retina cells activated. We took the patient to the same hospital and conducted his eye test after 1 week of healing; there were changes in his eyesight. The pattern report showed us 3 active retina cells (which was dead in the earlier report taken). The lab technician of the hospital confirmed that there was an improvement of eyesight in the new report. We took the patient to meet his Ophthalmologist but ophthalmologist gave us negative reply saying “as per medical science the patient can’t get back eyesight and ophthalmologist mentioned us that sight will deteriorate as the time progresses”. We asked the ophthalmologist to check the sight improvement situations with the patient and patient replied saying he has slight improvement in his eyesight. Moreover, he was feeling tingling sensation when we were passing the Reiki Distant. Healing energy to his eyes. This could be a miracle and an experiment beyond science. We are still working with lot of research in this field. According to medical science, there is no cure for Type1 Diabetes, Low Blood Pressure and many other diseases. However, we have brought lot of patients out of these diseases using powerful ancient healing techniques. Till date, we have brought 2 patient’s low blood pressure to normal blood pressure 120/80 mm Hg and 2 patients Type1 Diabetes has been brought to normal.

Type 2 Diabetes Patients healing - 5 days distant healing result

Some people are suffering from diabetes because of obesity and some are suffering due to many psychological reason. Unless we heal their psychological problems we can’t bring their glucose level to normal level. In Reiki healing methods, we can easily heal patients problems related to the brain by healing those specific hormones such as melatonin, serotonin and oxytocin. We have seen patients going to trance state and feeling calmness in their mind.

I had 2 Diabetes patients from Dubai approached me for a Reiki Distant Healing. The first case was Insulin dependent obese lady aged 45 years and the second one was her husband aged 50 who was having lot of work, travel related stress and anxiety. We started giving Reiki Distant Healing from India to these 2 patients. Before starting REIKI treatment her fasting blood glucose level was 217

mg/dL within 5 days of Reiki Distant healing her FB glucose level went down to 130 mg/dL. There was no change in diet or workout. We managed to remove her fat from abdomen, liver and energize Pancreas. We activated pancreatic beta cells so as to secrete insulin. The second case her husband has not done any changes in work out or diet. We managed to heal his stress hormones and pancreas. His initial FB glucose level before initiating reiki treatment was 220 mg/Dl and it came down to 140 mg/Dl within 5 days of completing treatment [1-3].

More importantly, we wanted to high light here that these 2 patients had their PPBS (postprandial) rating was 450 mg/dl and after 5 days of reiki distant healing we could able to bring it back to 155 mg/dl just by healing or burning their excess fat in obesity case and healing stress hormones in other case. We have burnt 4 Kgs of fat in one month duration. There was no food control or work out done by the patient during our treatment. Results after 1 Mexican Healing

On 28th July evening, I conducted Mexican healing training class to my patient along with others. I took his random glucose level before giving him Mexican healing and it was 344 mg/Dl. After 1 Mexican healing his glucose came down to 260 mg/Dl. All the people who attended the training class were astonished with the power of Mexican healing.

To summarize in 3 days, using attunement (Reiki and Mexican attunement) and with 1 Mexican healing, his glucose level came down from 575 mg/dL to 260 mg/DL. What is the percentage in drop down? 54.8%. Can we bring 50% glucose level down in 3 days of taking any insulin doses? We are aware a lot of diabetic patients waiting for weeks/months to bring down their glucose level before they visit dentists. This Mexican healing therapy might help those patients. Diabetes Type 2 - Insulin Dependent (12 to 25 years Diabetes History) (Table 4).

	Type of Diabetes	Age & Sex	Fasting Blood Glucose Before Attunement/ Healing	Fasting Blood Glucose After Attunement/ Healing	Random Glucose Level Before Healing	Random Glucose Level After Healing	Method of Healing
1	Type2 Insulin Dependent	70, Male	Not Taken	Not Taken	575	260	Just in 5 days of Reiki Attunement, Mexican Healing Attunement and 1 Mexican Healing
2	Type 2 - Genetic	63	Not Taken	Not Taken	328	274	After Reiki Attunement and 1 Mexican Healing
3	Type2 Insulin Dependent	73, Female	Not Taken	Not Taken	236	190	After Reiki Attunement and 1 Mexican Healing

Table 4: Method of Healing: Mexican Healing (1 Healing Session for 2 & 3).

Please note that there is no change in his food/diet or workouts. Also note the difference between the readings after attunement and after healing. After this experiment, we worked with 2 more patients and we have received tremendous drop down in glucose after 1 Mexican healing session.

We are all made up of energy and it flows through the energy centers (chakra). We can't necessarily see energy, but we can feel the energy. When our energy centers become weak, diseases related to corresponding energy centers will pop up [4-5].

For Diabetes, there is an energy center called "Solar Plexus" located above our navel. All diabetic patients will have low energy in their solar plexus energy center. If you energize this energy center you will see the drastic reduction in your glucose level. You do not need to go for a pancreas transplant or tablets/insulin to treat your diabetes.

It is all in the energy. Learn from your Reiki master or healers to energize all your weaker organs or energy centers.
